

Eastern Iowa Science and Engineering Fair

We need you to judge!

What? The Eastern Iowa Science and Engineering Fair

When? Saturday, March 20, 2010, starting at 8:00 A.M.

Where? Lindale Mall in Cedar Rapids.

Who? High school and middle school students from all over Eastern Iowa.

Why? The students have finished their science projects. Now they're bringing them to Lindale for the public to admire—and for you to evaluate.

How?

- When you arrive, we tell you what projects the students have brought; you pick five or more projects you would like to judge.
- We give you guidelines on how to evaluate the students and their projects, then send you out to do it.
- You talk to each student and judge the quality of their project; after the interview, you record your score for the project and write constructive comments for the student.
- You turn in your scores and comments by about 12:30, and you're done.

If you're interested in science and like talking to teenagers, you're right for this job.
